REPORT IN BRIEF: The Town Council adopted the SR7/441 Corridor Master Plan in 2005 as a long-term vision for promoting economic vitality, aesthetic improvement, community redevelopment and safety in this area. This plan recognized the need for enhanced multi-modal transit (bus, bike, pedestrian, etc.) as redevelopment progresses.

The Florida Department of Transportation and Metropolitan Planning Organization locally administer the federal Transportation Enhancement Program. This program provides funding for projects that enhance transportation-related facilities and activities. The South Florida Regional Planning Council (SFRPC) is submitting a request for funding to construct multi-modal transit shelters along the SR7 corridor. At the Town's request, the SFRPC has agreed to request two shelters for the Davie SR7 corridor as part of its application. No matching funds are required from Davie for this project.
